Eric	
Zane	

Agenda/Minutes for Today's Meeting

What have we done since Tues?
- Eric - Implemented routing, worked on homepage CSS elements for future use.
- Jayden - added the grids to divide products and the recommendation section on the homepage.
- Zane - tracking user stories, and keeping Jira up to date
- Marvin - Implemented likes/dislikes of products in the backend

What went well?
- Started coding earlier in the sprint

What did not go well?
- Still have many tasks that need to done

What changes should we make?
- Be more transparent with what we're working on
- We need to add some doc strings for every file.
